

Present Tense Artist Talks Extra Credit

What

Present Tense Artist Talks are in-person, quarterly events hosted by Medium Photo, showcasing work from four selected photographers, who each share a short slideshow from one of their bodies of work in an informal conversational environment.

The selected photographers tend to be emerging or mid-career artists and we always have at least one student sharing their work. In a short amount of time, you will experience a variety of photographic perspectives, approaches, and aesthetics.

When
